RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In the Office Action mailed from the Patent Office on May 27, 2003, the Examiner required election of one of the following patentably distinct groups:

- Group I: Claims 1-22;
- Group II: Claims 23-24, and 49-50;
- Group III: Claims 25-26, and 32-42;
- Group IV: Claims 27-31, and 43-48;

Applicants respectfully traverses the restriction requirement as improper. However, for the purpose of being responsive to the instant Office Action, Applicants hereby elect the Group I claims (drawn to methods for diagnosis of a disease).

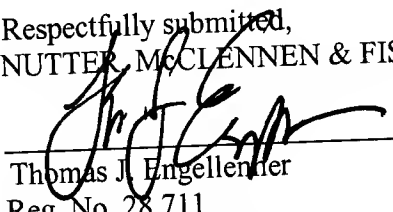

Applicants' understanding is that the Examiner views Group I claims directed to diagnosing prostate cancer with KIAA, Group II claims directed to assessing the treatment of prostate cancer with KIAA, Group III claims directed to screening prostate cancer drugs with KIAA, and Group IV claims directed to treating prostate cancer with KIAA.

Reconsideration is requested because all groups are directed to prostate cancer and KIAA. It appears that a single search should suffice for examination of all aspects of this invention.

Date:

11 July 2003

Respectfully submitted,  
NUTTER, MCLENNEN & FISH, LLP
